Spellings

Reading

Maths

In Maths this week, we did a lesson looking at the 2, 4 and 8 times tables and spotted the pattern between them all. We then completed our end of block assessment as well as doing our multiplication grid again. You can really see the progress with their multiplication, so keep it up!

Star Writer

Sonnie for a well thought out star write, with good use of star words.

Fantastic Handwriting

Elis for doing some lovely handwriting all week, particularly in your English book.

Science

Forces and Magnets

This week, we completed our unit on forces and magnets, looking at the learning objectives 'to explain the uses of magnets and to research the uses of magnets'.

We did some research on different uses of magnets, making notes on key bits of information we did not want to forget.

We then completed a mini quiz, checking our knowledge from the unit.

PSHE/RSE

This week we looked at words that are hurtful. We looked at the statement "Words don't hurt" and decided if we agreed or disagreed with this statement. We then thought of a friend and wrote down how they would feel if we used hurtful words against them.

Geography

We have been learning about electricity this week in geography, and understanding that electricity can be generated by offshore wind farms.

We looked at some wind farm zones in East Anglia and then wrote a reply to a newsletter report, expressing our views on a new wind farm being developed.

English

This week we wrote a letter to Santa from the viewpoint of Monty the penguin. We included the skills subordinating clauses and contractions, as well as an address, greeting and introduction to start our letter to Santa.

We have continued to read the book, '100 mile an hour dog' by Jeremy Strong in our Reciprocal Reading groups.

Year 3

Autumn 2 2025

08.12.25 to 12.12.25

*Class Book – How to
skin a bear*

DT

We finished making our pneumatic systems and then evaluated them, saying what worked well and even better if.

We also compared them to our designs to see how similar they were.

RE

This week we started by looking at how angels bring God's messages in the Gospels. We wrote from the viewpoint of different people in the Nativity story, thinking about what we would see-think-wonder. After sharing our viewpoint, we then wrote about someone that we trust, like lots of people trusting the angels.

We then moved on to looking at the signs used in Advent and Christmas. We drew the symbols we knew and then wrote their meaning. These includes Advent wreaths and Christmas trees.

NOTICES:

PE days – Tuesdays and Thursdays

One week left, where has the time gone!

We are looking forward to all the festivities next week will bring.

Gold book

Ranveer for being a star student in terms of getting on with your work well and showing a positive attitude to learning. Also for putting your hand up during lessons and sharing great ideas with the class. Well done Ranveer.
