

English

To celebrate World Book Day, we focused on *Alice in Wonderland*. The children produced wonderfully imaginative retells of the magical moment when Alice falls down the rabbit hole., using expanded noun phrases with prepositional phrases, 'show, don't tell' techniques, and carefully punctuated dialogue to bring the scene vividly to life.

Maths

This week in Maths, we continued with Fractions. The children compared and ordered mixed numbers, explored improper fractions and converted mixed numbers to improper fractions.

RE

In RE, we finished our topic of Galilee to Jerusalem. The children learned about the Nicene Creed and how it expresses the core beliefs of the apostolic faith. They also explored real examples of people who are inspired by Jesus today and created thoughtful posters showing how His message continues to inspire acts of service in our world.

Geography

In Geography, we continued explore the Paris Basin. The children conducted independent research to create a fact file describing the main rivers, landforms, climate, common rocks and farming within the region.

Year 4

Spring 2 2026

Week 2

Science Week

Next week, it is British Science Week. This year's theme is *Curiosity – What's your question?* Throughout the week, the children will be exploring questions that can be investigated through hands-on enquiry and discovery. We're looking forward to a wonderful week of curious thinkers and budding scientists!

Science

This week, the children explored sound waves and how they travel through the air to the ear. They used an article on whales and dolphins to research how they communicate in order to explain why sound travels faster and further in water than in air.

Homework

Maths – Atom Learning
RE – Please choose a station of the cross and represent it as a collage or painting with a short reflection

Science – Atom Learning
TTRS
Boom Reader

Gold Book
