

English

This week we created space stories. We learnt how to describe the setting using similes and metaphors, describe characters using modal verbs and adverbs, and identify and use personification and onomatopoeia.

Science - Living things

We described the life cycle of birds and posed questions to compare it to the life cycle of a mammal.

R.E

We described 'conscience' using specialist vocabulary and explained why prayer is central to Lent. **We also** described how prayer postures help Catholics listen to God and examine their conscience during Lent.

Science Week!

During Science Week, we looked at patterns between objects and made careful observations. We used technology to record and support our observations, and took measurements about scale. During our workshop, we learnt about taking blood pressure and taking blood.
