

Friday 9th January 2026

Dear Parents,

To celebrate Science Week, themed "*Curiosity... what's your question?*", taking place during the week beginning Monday 9th March, we are looking for parent and carer volunteers who work in science, medicine, engineering, technology, or other STEM-related fields to come and share their experiences with our pupils.

We would love for volunteers to visit the school to give a short talk or lead a simple, hands-on demonstration with one or more classes. This could include:-

- Talking about your job or career path
- Showing equipment or tools you use
- Sharing a simple experiment or activity
- Explaining how science is used in everyday life

These visits are a fantastic way to help children see how exciting, relevant, and varied science can be.

If you would like to take part, please reply to admin@stcross.herts.sch.uk subject: Science Week letting us know:-

- Your job or area of work
- Any ideas you might have for a talk or activity
- Your availability during the week beginning 9th March

Thank you for your continued support.

We look forward to making Science Week a fun and inspiring experience for all our children.

Kind regards,

Joanne Walsh

Mrs Joanne Walsh (She/Her)
