Homework

Atom Learning- Maths

TTRS – Garage 10

Spellings and Reading

RE Home Learning- Due 17th October- Re-build my World- Peace and Creation- Draw, paint or make a model using recycled materials. Show us your favourite animals, plants or a beautiful part of our earth.

Christmas Cards- Due 12th October- All instructions on the sheet your child has.

Science

We have continued learning about movement and nutrition, with this week focusing on the nutrient groups.

We moved around the room, doing our research on what the different food groups provide for our bodies.

English

This week in English we have looked at the book 'The Secrets of Stonehenge'. We wrote a story about us going on a trip to Stonehenge, including lots of facts from our non-fiction book, as well as adjectives and adverbs.

We also answered some questions on our book The 100 mile an hour dog in Reciprocal Reading.

RE

We looked at the holy day and why God gave us this holy day. This linked to our learning on Creation where God created the world in six days and then rested on the seventh.

Art

This week in Art, we enjoyed doing some creative activities to do with World Mental Health Day.

We will continue with our Art learning next week.

PE

Swimming

Maths

In Maths this week, we have continued with addition and subtraction, adding 1s, 10s and 100s across each other, for example adding 10s across a 100 and the subtracting 1s across a 10 and subtracting 10s across a 100.

PSHE/RSE

This week, we celebrated World Mental Health Day. We talked about what mental health is and how we can look after our mental health. We discussed whom we could talk to if we need support. Finally we finished by doing some fun activities to support our mental health and wellbeing.

Year 3

Autumn 1 2026

5.10.26 to 9.10.26

NOTICES:

We have Mass on Wednesday 14th October at 9:15am.

If you have a picture of your child at home, that they might want to draw part of the picture in Art, they can bring it in. Any size.

Please can you practice number bonds with your children if they are not confident with them. For example 7 +3 = 10 but also knowing that 156 + 4 = 160, taking us to the next ten. Having this knowledge of number bonds helps them massively in the learning we're doing at the moment in Maths.

Gold book

Nevada for being a wonderful role model in the class and always working so hard in lessons.

Star Writer

Ivy for a wonderfully written Star Write

Fantastic Handwriting

Jessica for doing some lovely, neat handwriting

History

We moved on to look at the iron age this week and looked specifically at trading. We played a game called 'Would you survive?' where we traded different items and tried to complete our checklist.

We then looked at the introduction of coins and how this ended bartering.

Spellings- to be tested on 15.10.26

(Remember you can choose to learn 5, 10 or all 15)

*The /s/ sound spelt c before e, i and y (year 2 revision).
